## Yat Li from Wavefront Centre - Wednesday, May 26 | Noon to 1pm

### What is Hearing Loss and Where Can I Get Help

Did you know one in ten Canadians experiences hearing loss? Good hearing and communication are important at all stages of life. Wavefront Centre, a non-profit charity based in Vancouver, will discuss how individuals can create better communication accessibility. They will explore communication accessibility, hearing health, assistive devices and briefly discuss tinnitus & hyperacusis.

## Marco Pasqua - Wednesday, June 23 | Noon to 1pm

### 5 Surprisingly Easy Changes to Make Your Business or Public Space More Accessible

Have you always wanted to make your business, public space (i.e. museum) more accessible to people with disabilities and you just don't know where to start?

Now more than ever is the perfect time to build in some inclusion strategies into your restart planning. The good news is, it's not as complicated as you think, and not only can you increase disability awareness, but also provide opportunities for a new, often underutilized talent pool to join your team as staff. As both a business leader and person with a disability, Marco Pasqua will share his 5 surprisingly easy changes you can make that will increase the accessibility of your organization and teach you some new ways to adapt to our ever-changing world.

## Our Commitment to Accessibility

Every person in Surrey has a place here. We aspire to be accessible in every sense of the word: physically, intellectually, culturally, and economically. We are committed to making visitors feel welcome, comfortable and safe.
